Mimi

In a few short years Mimi has focused her multiple professional credentials to firmly establish herself as a vibrant, bilingual individual with a well deserved reputation for successfully developing aspiring riders into strong competitors striving for excellence in their sport. She applies scientific principles of physiotherapy to both rider and horse, and has developed many young, sound horses to pursue various equine disciplines with their new partners.

Every rider and horse benefits from Mimi's meticulous preparation. This care and attention to detail instills confidence and courage as students enter the ring. Coach and student work together to establish and then pursue goals. Under her tutelage, students have competed successfully from pre-entry to preliminary level in eventing. Adults have progressed from basic riding skills to become successful dressage competitors. Young and old have seen numerous successes in the jumper ring.

Currently partnering with 6 year old Canadian Sport Horse "Make My Day", Mimi continues as an intense competitor.

2017 saw outstanding performances in three equine disciplines of Dressage, Jumper and Eventing for this dynamic team. We anticipate a brilliant follow up as horse and rider continue to come together as partners.

She is a certified Equestrian Canada Competition Coach (level 1) and Rider Level examiner and also recently began the process of establishing her credentials as a Para Equestrian Classifier, one of few in Canada. In 2017 Mireille has begun qualifying as a Competition Coach Specialist (Eventing).
